SUMMARY

MIS graduate **(Excellent)** and Frontend Developer with professional training through **ITI, DEPI,** and **NTI**. Skilled in building responsive, user-focused web applications using HTML5, CSS3, JavaScript, React, Tailwind CSS, and REST APIs. Brings **5+ years** of experience in customer service, administrative operations, and cash handling, combining technical skills with strong communication, teamwork, and problem-solving abilities.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Bootstrap

Web Development: Responsive Design, REST APIs, React Router, Context API, LocalStorage

Tools: Git, GitHub, Vite, VS Code

Additional: Arabic RTL Development, Form Validation, SEO/Open Graph, API Integration

PROJECTS

VORTEX Store, React 18, Vite, React Router, Tailwind CSS, Context API, REST API, LocalStorage
- Built a React SPA with product browsing, search, category filtering, sorting, cart management, and validated checkout.
- Integrated FakeStoreAPI through a centralized service layer with loading, error, retry, and persistent state handling.
- Implemented global authentication, cart, and theme state using Context API with protected routes and LocalStorage persistence.

GameHub — Game Discovery Web App, HTML5, CSS3, JavaScript (ES6+), REST API, LocalStorage
- Developed a framework-free game discovery application using the FreeToGame REST API with search, filtering, and sorting.
- Built a resilient API data layer with request timeout, response normalization, and fallback data handling.
- Implemented validated authentication, protected pages, and per-user favorites using LocalStorage.

Shifa Medical Consulting — Corporate Website, HTML5, Tailwind CSS, JavaScript | Arabic RTL
- Developed a responsive Arabic RTL corporate website with 11 content sections and SEO/Open Graph optimization.
- Implemented validated contact forms with live error feedback, dark/light mode, and a testimonial slider using vanilla JavaScript.

Power Gym — Landing Page, HTML5, Tailwind CSS, JavaScript | Arabic RTL
- Built a responsive gym landing page featuring services, trainers, pricing, testimonials, and contact sections.
- Added scroll-triggered animations, counters, testimonial slider, and mobile navigation using vanilla JavaScript.

WORK EXPERIENCE

Administrative Data Entry — Anvel Security Egypt, Sadat City | Part-time 01/2026 – Present
- Maintain and update administrative records accurately while supporting daily operational workflows.
- Organize and audit digital files and prepare data reports for the administrative team.

Cashier & Customer Service — ExxonMobil, Wadi El Natrun | Part-time 11/2020 – 01/2026
- Handled daily financial transactions and cash reporting with accuracy and accountability.
